Bilateral Meetings

- I confirm to participate in b2b sessions block 1 on Thursday 10:30-12:10
- I confirm to participate in b2b sessions block 2 on Thursday 12:10-13:50

Description

Life Finders will provide the future of saving lives by using smart IoT solutions. Life Finders solution will generate an automatic alarm from the person in emergency such as MOB. It will be activated based on e.g. water, chock, unnormal conditions. Critical and fast information such as position and activity will make search and rescue much faster and efficient. The device is extremely small, maintenance free and can be a built into existing safety equipment such as life jackets, workwear or used as a wearable.
