Offer

Project Management / Marine Technologies

While building our innovative sailing yacht "VOLT" we got involved with a number of new technologies - from electric propulsion systems to customized solar panels or biozide free antifouling. We want to share this knowledge with anybody who is interested in sustainable yacht building. Please contact us.

Request

Building the next generation sailing yacht - Investor wanted

With our concept "Next Generation Yachting" we are developing a cruising yacht that is superior to most existing yacht models in many aspects. We are looking for a cooperation to start a serial production - either with an existing boatyard or with an investor who can provide the financing of the project.
