Bilateral Meetings

- I confirm to participate in b2b sessions block 1 on Thursday 10:30-12:10
- I confirm to participate in b2b sessions block 2 on Thursday 12:10-13:50

Description

HASYTEC is the world leading provider of ultrasound based anti-fouling technology. During the last 3 years close to 4.000 transducers has been installed almost 200 vessels to protect them against marine growth and fouling on sea water cooling systems, fresh water generators, bow thrusters, propellers and hulls. HASYTEC`s Dynamic Biofilm Protection is THE innovative, sustainable and proven solution to improve biofouling management and protect the environment against carrying of invasive species.
