Bilateral Meetings

- I confirm to participate in b2b sessions block 2 on Thursday 12:10-13:50

Description

The German Ocean Foundation creates synergies of knowledge and acting by involving science, economy, politics and society. The aim is to create a broad "sea-consciousness": in political decision-makers, in opinion-makers, in the economy, in the general population and, above all, in the youth in order to overcome the present irresponsibility.
